

# Ashwin Menon

ashwinmenon2112@gmail.com | +91 85899 37390 | Mannarkkad, Palakkad, Kerala, India

## PROFESSIONAL SUMMARY

Third-year Computer Science Engineering student with hands-on software development experience across full-stack web applications, REST APIs, databases, React.js, Python, JavaScript, C, and Java. Completed a 3-month Software Developer internship at Saint-Gobain, delivering a 5S Audit Management System with ASP.NET Core 10, C#, PostgreSQL, Entity Framework Core, JWT authentication, role-based access control, React 19, Chart.js, automated email reminders, background jobs, and Excel/PDF reporting. Strong foundation in object-oriented programming, data structures, testing, debugging, Git, and responsive UI development.

## EXPERIENCE

### Software Developer Intern

May 2026 – July 2026 | 3 Months

*Saint-Gobain, Kanjikode, Kerala*

- Delivered a **5S Audit Management System** that replaced a manual spreadsheet workflow and a **29-page Power BI reporting process**.
- Developed **JWT-secured REST APIs** using **ASP.NET Core 10 and C#**, implementing role-based access control across **6 user roles**.
- Designed a normalised **PostgreSQL** relational database and integrated it with **Entity Framework Core** ORM for application data access.
- Implemented audit execution, corrective-action tracking, automated email reminders, background-job scheduling, and **Excel/PDF reporting**.
- Built **React 19** dashboards with **Chart.js** to reproduce legacy Power BI analytics and provide real-time audit insights.
- Created unit tests with **xUnit and Vitest**; investigated defects, performed cross-stack debugging, documented the solution, and managed source control with **Git**.

### Python Full Stack Developer Intern

2024 | 2 Weeks

*Spectrum, Kochi, Kerala*

- Developed and maintained Python-based full-stack web applications under professional guidance.
- Collaborated with developers to understand application workflows, REST APIs, database integration, and deployment practices.

## EDUCATION

### Bachelor of Engineering (B.E.) – Computer Science and Engineering

2024 – 2028

Nehru Institute of Engineering and Technology, Coimbatore

Third Year | Expected Graduation: 2028

## PROJECTS

### Zeon – AI Assistant | Python

- Built a conversational AI assistant that processes natural-language queries and generates real-time responses.
- Applied Python and AI/ML libraries for response generation, context handling, and human-computer interaction.

### Weather App – Real-Time Weather Application | React.js, JavaScript, Weather API

- Developed a responsive weather application that retrieves and displays real-time weather conditions for user-selected locations.
- Integrated a weather API for temperature, humidity, and weather descriptions; used React state management for dynamic UI updates.

### Netflix Clone – Streaming UI | React.js, JavaScript

- Developed a Netflix-inspired streaming interface using React.js with component-based architecture.
- Implemented dynamic content browsing, search functionality, and responsive UI design.

## TECHNICAL SKILLS

**Languages:** JavaScript, Python, C, Java, C#

**Frontend:** React.js, React 19, HTML5, CSS3, Chart.js, Responsive UI Design

**Backend:** ASP.NET Core 10, REST APIs, Node.js, Express

**Databases:** PostgreSQL, SQLite, MongoDB, Entity Framework Core

**Security & Testing:** JWT Authentication, Role-Based Access Control, xUnit, Vitest

**Tools & Concepts:** Git, GitHub, Full-Stack Development, Data Structures, OOP, Debugging, API Integration

## CORE STRENGTHS

Problem Solving • Full-Stack Development • API Development • Database Design • Software Testing • Debugging • Team Collaboration • Fast Learning
